REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicant's argument "Sakumoto, in combination with Patel, are talking about something different than the problem which the present invention solves ... the combination of references do not teach or suggest to a person skilled in the art of masking tape which comprises the masking material as instantly claimed" (Remarks, page 6, top paragraph) is persuasive, and the rejection over Patel, Sakumoto and Leeuwenburgh is withdrawn. Further, the Examiner notes that the closest prior art Leeuwenburgh lacks a teaching of an absorbent masking material. Finally, while a new search found a relevant prior art DE 29617896, which describes a masking tape having an absorbent masking material at one edge of the adhesive tape, it is noted that neither Leeuwenburgh nor DE '896 teach that both the absorbent masking material and the masking sheet are bonded to the adhesive overlying the support, as such the instant invention is neither taught, nor obvious over the prior art references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
